

LAB: Create Contact Us

Lesson Time: 60 Minutes

Your goal in this lab is to re-create the form shown below. Your form should post to the POST testing tool at <http://www.hashemian.com/tools/form-post-tester.php>

Contact Us

Have a question or feedback for our website? Please contact us!

Name Email Address

Rating

Comments

When you submit your form, you should get a valid response for the testing site. Be aware that if done as shown, the comments data and dropdown rating will not POST. This is not an error on your part. The testing tool is no setup to accept these and would require javascript from us to submit.

Success results:

The POSTed value is:

name=mytest&email=mytest%40email.com
