LAB: Create a Layout

Lesson Time: 120 Minutes

Building on the last lesson with the navbar you build, continue to build out a complete layout for the page with a simple layout of your choice. You may choose a one, two, or three column layout with a sidebar and footer. You may also choose to create the Holy Grail Layout. You have 2 hours of class time to complete this assignment, so spend time making your layout look as great as possible!

Use the CSS Layout Examples from QuackIt as a Reference to create your layout.
